Halal Affordable Housing Investment Fund

June 2026

IslamicFamily
created to serve

Invest for impact · Investir pour l'impact

Disclaimer

This presentation is provided solely for informational purposes and does not constitute investment, legal, tax, or other advice. It is not an offer to sell or a solicitation of an offer to buy any securities. Any offering, if made, will be made only pursuant to definitive offering documents. Exempt market investments are speculative, involve significant risk, and may result in the loss of all invested capital. Information in this presentation is provided as of the date hereof and may be updated without notice. Recipients should not rely on this presentation as the basis for any investment decision and should consult their own advisors.

Fund Overview

The Halal Affordable Housing Investment Fund is a Shariah-compliant investment vehicle designed to mobilize private capital into affordable housing in Canada through a professionally managed LP/GP structure.

The Fund is being developed by IslamicFamily and SVX to address a clear and underserved market need: the shortage of affordable multi-bedroom housing for larger, extended, and multi-generational families, and the lack of institutional-quality halal investment products that allow Muslim and other values-aligned investors to participate in housing solutions without relying on interest-based financing.

Beyond the first LP offering financing an initial project, the Fund is intended to serve as the foundation for a broader halal affordable housing platform. The GP joint venture is being designed as a permanent operating entity capable of supporting future project-specific LPs and, over time, a larger multi-project vehicle. If successful, the Fund will not only finance a critical pilot project. It will help establish a replicable model for mobilizing faith-aligned and impact-oriented capital into affordable housing across Canada.

About SVX and IslamicFamily

SVX's mission is to advance social, environmental and economic justice through impact investing. As a nonprofit, diversified financial services firm, we work with investors, funds, enterprises, and institutions to help them take the first step or next step on their impact journey. We provide knowledge products and programs, design strategies and products, manage funds, operate an impact investing platform, and develop systems change solutions. We work across sectors that deliver meaningful impact: climate, food, equity, housing, and community real estate. We have partners and operations across Canada, as well as in the US, Mexico, and Colombia.

IslamicFamily is an Edmonton-based community organization and registered charity with deep experience serving Muslim and broader communities through family support, food access, social services, newcomer support, community development, and housing-related initiatives. Its work is grounded in faith, compassion, and practical service delivery. The Halal Affordable Housing Investment Fund emerges directly from community need identified by IslamicFamily through its work with families facing housing insecurity, overcrowding, affordability pressure, and limited culturally responsive options. IslamicFamily has also played a leadership role in the development of halal housing solutions through the Halal Housing Solutions Lab and related design work supported by CMHC and other partners.

Collective Experience and Expertise

1

Fund Management, Capital Raising, and Investor Relations

We have experience securing, managing, and deploying capital:

- \$60M of assets managed and advised
- Over \$500M in total capital mobilized across the Americas

2

Investment Fund and Product Design and Development

We have experience structuring, launching, and managing over a dozen funds including:

- Affordable housing funds
- Venture capital funds
- Place-based community loan funds
- Outcomes bonds
- Municipal climate infrastructure fund
- Private loans and co-op shares

3

Affordable Housing Development and Acquisitions

We have experience with development, due diligence and financial analysis:

- Land and building acquisition
- Municipal zoning and planning
- Environmental Assessments and permitting
- Construction estimates and pro-formas
- Legal and financial
- Tenant and property management

Collective Experience and Expertise

4

Capacity Building and Knowledge Sharing

We have experience designing and producing knowledge products and learning programs:

- Research and Impact reports
- Case studies and blog posts
- Podcasts and video interviews
- Cohort-based accelerators
- On-demand virtual courses
- Virtual and in-person gatherings

5

Broad and Deep Sector Perspective

We have experience working with and from multiple perspectives in the ecosystem:

- Non-profit developers and project proponents
- Fund managers and lenders
- CMHC and other government agencies
- Municipalities and housing agencies
- Investors and donors including supporting eight (8) investors in strategy and deployment

6

Innovative and Value-Added Solutions

We have experience being 'first to market' with innovative financing products, having launched over 15 impact investing products:

- Early developer of community bonds
- Innovative co-op investment model
- One of the first private impact loan funds
- First of its kind 'Halal' (Shariah-compliant) housing fund

Market Gap and Opportunity

The Halal Affordable Housing Investment Fund responds to a growing need for affordable, family-sized housing and a missing financing pathway for values-aligned capital.

- **Underserved housing need:** Larger families, multi-generational households, newcomers, and culturally diverse communities are often underserved by current affordable housing models. Black Muslim families in Edmonton are 16x more likely to live in subsidized housing than the general population.
- **Underbuilt product type:** Affordable housing development has often prioritized smaller units, leaving a shortage of suitable two-bedroom, three-bedroom, and larger homes. The average Canadian family waits 3–4 years for an affordable housing placement.
- **Growing market demand:** Canada's Muslim population is large, growing, and underserved by mainstream housing and investment products, creating demand for solutions that are financially credible, culturally aligned, and Shariah-compliant.
- **Capital access gap:** Conventional interest-bearing finance excludes many Muslim investors and community organizations from participating in affordable housing solutions.
- **Fund opportunity:** The Fund can unlock faith-aligned, impact, philanthropic, and institutional capital to help deliver affordable, family-sized housing with measurable community impact.

Fund Solution and Value Proposition

The Fund brings together affordable housing need, Islamic finance, and impact investing through a professionally managed, Shariah-compliant real estate investment vehicle.

Fund Solution

- The Fund pools capital from accredited and institutional investors into an LP structure managed by a GP jointly owned by IslamicFamily and SVX.
- Capital is deployed into family-oriented affordable housing projects using a Shariah-compliant structure tied to the performance of the underlying real asset.
- Investor returns are generated through project cash flow and long-term capital recovery, based on unit class and governing agreements.

Fund Value Proposition

- Offers a **credible, professionally structured** halal investment product
- Provides **real asset exposure** through tangible affordable housing assets
- **Addresses a clear gap** in family-sized and multi-bedroom housing supply
- **Connects community trust with institutional fund management** capacity
- Balances **disciplined return expectations** with **measurable community impact**
- Creates a scalable platform for future halal affordable housing investments

Key Principles in Islamic Finance

Islamic Finance replaces interest with equity participation and profit-sharing. The principles below are not exotic constraints, but a framework for aligning financial returns with real economic activity and shared risk.

1. RISK SHARING

Profits and losses should be distributed among investors and stakeholders based on their respective contributions and agreements.

2. PROFIT & LOSS SHARING

Instead of earning interest, returns on investments should come through profit-sharing arrangements that is proportional to the risk being taken. This ensures that all parties share in the risks and rewards of the business venture in a fair and transparent manner.

3. ASSET-BACKED FINANCING

Financial transactions should be backed by tangible assets or services. Money must be tied to real economic activity, promoting productivity and stability in the economy.

4. SOCIAL RESPONSIBILITY & ETHICAL INVESTMENTS

Investments must be made in halal (permissible) activities that are ethically sound and socially responsible. The goal is to promote economic justice and equitable distribution of wealth.

Source: A Primer on Islamic Finance, CFA Institute

Fund Model and Structure

The Fund will operate under a **GP/LP structure**:

- A new **General Partner joint venture company** will be established and jointly owned by IslamicFamily and SVX.
- The GP will manage the Fund and enter into the required fund management, governance, and service arrangements.
- The initial **Limited Partnership** will be the Halal Affordable Housing Investment Fund, created as a single-project LP for the first offering.
- Over time, the same GP can create additional LPs for future projects or a multi-project vehicle.

The first LP offering is expected to target **approximately \$25 million**. This amount reflects the scale required for the Dunluce pilot and the desire to establish a credible first institutional fund size. The offering may still be raised and called in phases if that better suits project timing, investor onboarding, and transaction milestones.

Fund Model and Structure

General Partner (GP) — Joint Venture Co.

The GP is the management and governance entity for the Fund, jointly owned by IslamicFamily and SVX with a 60/40 ownership split. It is governed by a separate JV agreement.

It is responsible for:

- fund oversight and execution;
- entering into management and service contracts;
- compliance and reporting oversight;
- coordination of capital calls and distributions;
- appointment and management of advisors and service providers.

IslamicFamily (IF)

- co-ownership of the GP;
- stewardship of mission, project pipeline, and community fit;
- local market relationships and borrower advocacy;
- support for capital raising through community and faith-based networks;
- participation in governance through its board appointments;
- receipt of residual proceeds after investor distributions, where structured accordingly, for charitable purposes.

SVX

- co-ownership of the GP;
- Service level agreement with the GP for fund management;
- fund design, structuring, and market launch support;
- underwriting and due diligence;
- compliance, administration, and investor reporting;
- capital raising support and investor relations;
- portfolio management and impact reporting coordination.

Fund Model and Structure: Future Funds

The GP Joint Venture Co. is a permanent entity that creates and manages multiple LP funds over time. Each fund is a distinct, separately structured vehicle with its own investors and capital.

Fund Structure: Project Financing

Fund Structure: Investor Distributions

Fund Structure: Investor Distributions

- Investors subscribe for LP units in the Halal Affordable Housing Investment Fund.
- The GP manages the LP and deploys capital into the Dunluce project under an agreed Shariah-compliant investment structure.
- The project generates revenue from rent, subsidies, laundry, and other permitted operating income.
- Operating expenses, reserves, and project obligations are paid.
- A defined share of net operating income or other agreed economic return flows to the Fund.
- The Fund makes distributions to investors according to unit class and governing agreements.
- Residual value, where applicable after expenses and investor distributions, flows to IslamicFamily for charitable purposes.

Fund Structure: Capitalization Strategy

1. Equity: LP Unit Classes

- **Class 0:** principal-back capital with no intended return other than return of capital, expected over a five-year period. This class can support concessional or catalytic investors.
- **Class 1:** return-seeking capital targeting approximately 2.5 percent annual return above return of capital over a ten-year horizon.
- **Class 2:** IslamicFamily's class reflecting its contributions and its participation in residual value after expenses and investor distributions.

These classes allow the Fund to blend different types of capital while preserving a clear and transparent economic structure.

2. Philanthropy: Grants to IslamicFamily

Funders can provide philanthropic contributions to IslamicFamily to directly support the capitalization of 365 Dunluce. Charitable funds would not go through the fund structure, and instead would go directly to IslamicFamily to support the purchase of the building.

Target Portfolio: Investment Criteria

1. Shariah Compliance

Project financing from the fund must adhere to Islamic finance principles.

2. Target Housing Developments

- Focus on medium and large-sized developments (10+ units) with multi-bedroom configurations (2+ bedrooms).
- Preference for projects that cater to multi-generational family living.

3. Geographic Focus

Projects must be located in Canada, with a priority for regions with a demonstrated need for affordable family housing.

4. Affordability

Developments should offer affordable rent or purchase options, aligned with local market benchmarks for low to moderate-income families.*

5. Developer Experience and Track Record

Priority given to developers and organizations with proven experience in affordable housing projects and a strong track record of project completion and community engagement.

6. Community Impact

Projects should demonstrate a positive impact on the local community, including potential social, economic, and environmental benefits.

7. Financial Structure and Feasibility

- Clear and sustainable financial models, including capital structure, projected returns, and risk mitigation strategies.
- Projects should present a detailed feasibility study, including cost analysis, revenue projections, and potential contingencies.

8. Regulatory and Compliance

- Full compliance with local zoning laws, building codes, and other regulatory requirements.
- Projects must adhere to all relevant affordable housing policies and initiatives.

9. Partnership and Collaboration

Preference for projects involving partnerships with local governments, nonprofits, and community organizations to enhance project viability and impact.

10. Risk Assessment and Mitigation

Thorough risk assessment covering construction, market, and operational risks, with clear mitigation plans.

** There is a defined priority for families with core housing need, with housing that costs less than 30% of a household's before-tax income. We may define low and modest income families as those earning less than 80% of median household income for the area.*

Initial Project: 365 Dunluce

An initial project has been identified with an agreement to purchase at 365 Dunluce Road NW in Edmonton, Alberta.

- **Housing Type:** Residential, multi-unit, multi-bedroom affordable housing project for larger and extended families. Total of 96 units across 4 four-storey buildings.
- **Financing Stage:** Construction Finance and Take-Out Finance
- **Capital Type:** Equity-Based Financing
- **Project Scale (\$CAD):** ~\$37.6 million
- **Financing - Estimated value growth (amortization over 30 years):** 3.75%
- **Developer:** Vivid Homes
- **Operator:** IslamicFamily

Initial Project: 365 Dunluce

Based on the current financial model, the Dunluce project is expected to produce the following financial profile at stabilization:

Item	Amount
Annual gross revenue (stabilized)	\$1,473,079
Annual operating expenses	\$1,190,011
Cash surplus set aside	\$283,068
Cash surplus as % of revenue	~19.2%

- Revenue is expected to come from a mix of affordable and market-rate rents, a Zakat rent supplement (\$100,000/year), and parking income.
- Key operating cost categories include property management, waste removal, insurance, property taxes, and a replacement reserve (2% of revenue). The model assumes a **4% vacancy rate**.
- The Fund's initial Halal financing contribution to the project is modelled at approximately **\$5.67 million**, with the remainder of the capital stack drawn from grants, government programs (AHPP, Build Canada Homes), and owner equity contributions.

Initial Project: Traction and Committed Resources

The Dunluce project is not starting from zero. Approximately **30%** of the total capital budget has already been secured through land and grants, anchoring the project with government-sourced resources before any investor capital is committed.

- **Land (City of Edmonton):** Valued at approximately \$1.1M (awarded, not purchased).
- **Grant funding committed to date:** Approximately \$10M from city and provincial sources.
- **Combined committed resources:** ~\$11.1M against a total estimated capital budget of ~\$37.6M (approximately 30%).
- **Investor positioning:** Investors are not coming in first. Anchor funding from government sources is already in place, reducing first-mover risk.
- **Remaining capital target:** ~\$26.5M to be raised through the Halal Affordable Housing Investment Fund alongside other government and philanthropic sources.

\$37.6M Total Capital Budget

- Committed (grants + land) ~\$11.1M
- Remaining capital target ~\$26.5M

Terms: Halal Affordable Housing Investment Fund LP 1

Purpose	A "Shariah-powered" investment fund designed to address the growing need for affordable housing in Canada, specifically projects with multi-bedroom units that cater to larger, extended, and/or multi-generation families, providing a unique and ethical investment opportunity in the housing sector.
Parent Entity / Issuer	Halal Affordable Housing Investment Fund LP, managed by a General Partner jointly owned by IslamicFamily and SVX.
Management & Governance	The Board of Directors of which shall initially be five (5) representatives, with one community representative, two representatives appointed by IslamicFamily, and two representatives appointed by SVX. SVX will be contracted as the manager for the fund, receiving a management fee.
Target Size	Target fund size of \$25 million
Term	8+2 years
Use of Proceeds	The net proceeds from the Offering ("Net Proceeds") will be used to fund the proportional purchase ("Transaction") by IslamicFamily ("IslamicFamily") of the premises located at 365 Dunluce Road NW, Edmonton, Alberta (the "Housing") for a purchase price of \$17,000,000 closing on March 31, 2028 ("Closing") with the remainder of said purchase price beyond the Net Proceeds being paid by IslamicFamily. The fund will then provide IslamicFamily with the capital to buy out the remainder of the equity interest in 365 Dunluce Road NW by March 31, 2032 for a pre-established purchase price of \$17,000,000.

Terms: Halal Affordable Housing Investment Fund LP 1

Security	A first charge in favour of the General Partner on behalf of the Partnership, registered on Closing.
Baseline Financial Model	Repayment supported by a combination of philanthropy, government funding, rental income, and operating cash flows. Fund capital expected to offer lower-cost, more flexible financing relative to traditional institutional debt.
Securities	Offering of three different class of Units in the Partnership, every unit being \$50,000 (the “Units”) and each class being constituted as follows: a) Class 0 - These Units will reflect a contribution of capital via the purchase of units with no return intended other than a return of capital in five (5) years. b) Class 1 – These Units will reflect a contribution of capital via the purchase price of Units for a target equity return of 2.5 percent above and beyond a return of capital in ten (10) years, with the return being set accordingly. c) Class 2 - These Units represent the contributions and potential profits IslamicFamily may obtain from the Fund after expenses and investor distributions.
Target Investors	Accredited investors. Mission-aligned Limited Partners (LPs) seeking affordable housing impact with moderate financial return expectations.
Investment Minimum	\$250,000 for institutional investors; \$50,000 for individual investors

Terms: Halal Affordable Housing Investment Fund LP 1

Voting Rights	LP Unitholders will have no voting rights.
Prepayment Rights	Issuer has the right to prepayment without penalty after 5 years, while recognizing notice requirements (e.g., 90 days' notice for prepayment)
Target Return	Targeting 3% annual return above return of capital for Class 1 investors.
Management Fee	1.75% (Impact Linked). The fund will receive an increased management fee (+50 bps) starting in year 2 based on the achievement of impact performance targets.
Timeline / Target Close	▪ First close: \$400,000 on or before August 15, 2026 with funds advanced to IslamicFamily by August 30, 2026. ▪ Final close: On or before March 31, 2028 with first tranche of funds advanced to IslamicFamily by April 30, 2028, and second tranche of funds advanced to IslamicFamily by April 30, 2032.

Risk Management: General Risks

Market & Capital Raising Risk Risks • Investor appetite constrained by comparable market returns or market volatility • Competition from other real estate or impact opportunities • Shifts in affordability conditions affecting project viability Mitigation • Market sounding to validate demand and calibrate fund terms • Anchor fund with catalytic or concessional capital • Flexible instruments and conservative underwriting	Regulatory, Legal & Compliance Risk Risks • Charitable requirements related to social finance • Securities regulation requirements for LP interests and marketing • Municipal and provincial planning approvals • AML, privacy, tax, and reporting obligations Mitigation • Early engagement of securities, trust, and charity counsel • Robust compliance and regulatory monitoring systems
Execution & Operational Risk Risks • Construction delays, cost overruns, or contractor performance issues • Cash flow volatility during development and operations • Complexity of managing multiple project SPVs Mitigation • Standardized development agreements and cost controls • Contingency budgets and experienced oversight • Clear performance monitoring and reporting frameworks across SPVs	Financial, Liquidity & Reputation Risk Risks • Modest yields relative to investor expectations • Complexity of blended capital return waterfalls • Limited liquidity within a 7–10 year fund life • Reputational risk from project underperformance Mitigation • Transparent communication of return expectations • Blended finance structures aligned to risk profiles • Scenario stress testing and clear governance controls

Risk Management Process

Risk Identification

- List key risks, including stakeholder and communications, timelines, market conditions, political and regulatory shifts, credit, and property-specific factors.

Risk Assessment

- Gauge likelihood and impact using quantitative tools (financial models, market and pipeline analysis) and qualitative input from sector experts.

Risk Prioritization

- Rank risks by impact and probability to focus Fund resources.

Risk Mitigation Strategies

- For top risks, use diversification, structured protections such as guarantees or collateral, adopt mature market practices, and set contingencies for delays or underperformance.

Implementation

- Apply strategies through clear policies and procedures aligned with the Fund's objectives and risk appetite.

Monitoring and Reporting

- Track risks and mitigation effectiveness on a set cadence, with concise updates to stakeholders.

Review and Adjustment

- Regularly reassess and refine the process as conditions and information evolve.

Roadmap: Pre-Launch to Deployment

Work Completed (2023 to April 2026)

- CMHC Solutions Lab
- Comparable model research
- Shariah / Islamic finance engagement
- Initial financial model and governance framework
- Fund design and testing
- Dunluce pilot advancement and grant applications
- Draft materials (deck, structure, term sheet)
- Early investor and funder outreach
- Legal counsel engaged

Near-Term Priorities (April-June)

- Finalize GP/LP and JV structure
- Confirm Shariah compliance framework
- Complete investor documentation
- Refine financial model
- Prepare fundraising materials
- Recruit board and advisors

Launch Readiness (June-September)

- Incorporate GP + legal setup
- Establish admin, reporting, compliance systems
- Investor outreach + lead commitments
- Secure ~\$400K seed capital by August 15, 2026
- Execute Dunluce transaction
- Hire CEO / Fund Manager
- Operational launch

Roadmap: Long-Term Fund Lifecycle

Launch phase (Up to Sep 2026)

- SVX and IslamicFamily jointly managing fund setup and legal readiness
- Investor outreach and first capital commitments

Growth phase (2026 — 2028)

- CEO / Fund Manager leads day-to-day operations
- Active investor relations and capital raising toward ~\$25M first LP close
- Construction and development oversight of Dunluce project
- Quarterly investor reporting and annual impact reporting established
- Board onboarding and governance fully operational

Scale phase (2028 onward)

- First capital call of ~\$17M (March 2028)
- GP operates as permanent platform — additional project-specific LP funds possible
- Second capital call of ~\$17M targeting full building ownership (March 2032)
- Potential future expansion to multi-project fund and broader investor base

The GP Joint Venture Co. is designed as a permanent operating entity — not a one-time vehicle. Each future project can be structured as a new LP fund under the same GP, spreading overhead and building a track record over time.

Impact Management Framework

Impact

- Safe, comfortable and affordable housing for unhoused and low-income households
- Positive social, health and wellness of individuals and families, and neighbourhood
- Employment and training outcomes for tenants (and any contractors)

This is articulated in a comprehensive Theory of Change.

Key Metrics

- Number of housing units preserved / created
- Number of unhoused and low-income households served (including number moving from precarious housing)
- Average income of households served
- Quality of life and social determinants of health
- Equity deserving demographics
- Jobs created and maintained and skills training obtained
- *Climate outcomes (as possible)*

Standards

- Common Approach to Impact Management
- Sustainable Development Goals (SDGs) impact metric categorization

Process

- Annual Impact Report to Investors and Stakeholders
- Quarterly reports to IslamicFamily Board of Directors

Reporting Mechanisms

- **Quarterly Investor Updates:** Provide quarterly updates to stakeholders and investors, detailing financial performance, social outcomes, and stories of challenges faced and successes.
- **Annual Impact Report:** An annual report of the portfolio, fund impact, and publicly shareable financial information on the fund.
- **Investor and Stakeholder Meetings:** It will be critical to meet investors and stakeholders on a regular basis. There would be an annual investor meeting to share and discuss results, and the potential for an annual open community meeting to share results publicly.
- **Quarterly Finance and Compliance Reporting:** Compliance and Operations Report by Management to the IslamicFamily Finance and Audit Committee and Fund Board of Directors, including:
 - Capital forecast (36 month rolling cash flow on all development and construction projects). Includes impact investing cash flow (showing when bonds or loan mature and triggers additional capital calls).
 - Capital dashboard (summary of all projects, including the capital stack, spending to date and overall cash flow position)
 - Operational financials (budget to actuals and forecast to the end of the fiscal year)
 - Ratio overview (DCR, liquidity, etc).

Invitation to Participate

We are actively seeking investors and funders to help make the Halal Affordable Housing Investment Fund a reality.

Ways to participate:

- **Invest:** Subscribe for LP units as an accredited investor (Class 0 or Class 1). Minimum \$50,000 for individuals.
- **Fund:** Provide philanthropic or grant funding directly to IslamicFamily in support of the Dunluce project.
- **Connect:** Introduce us to aligned investors, foundations, or community partners.

Short-term Target: By **August 15, 2026**, the fund must secure a **\$400,000** initial capital commitment and demonstrate investor interest toward the full raise in order to proceed with the Option to Purchase on the Diamonds at Dunluce property. The fund needs to meet this target to secure the project.

Thank you

Our Approach

Partnership Focused

- Codesign funds with local partners, experts and stakeholders
- Leverage existing knowledge and networks

Flexible

- Leverage the SVX team and advisors to staff up as needed and lean on consulting and advisory projects to complement management fees
- Provide consistency within the communities we serve

Impact Focused

- Maintain impact measurement and tracking requirements on all funds (with an emphasis on increasing diversity at the board, portfolio and management level)
- Align with the social finance ecosystem

Leverage for Scale

- Leverage, support and lead initiatives to increase knowledge sharing across impact investing funds
- A service offering that can support small and emerging fund managers

Collective Experience and Expertise

1

Fund Management, Capital Raising, and Investor Relations

We have experience securing, managing, and deploying capital:

- \$48.4M of assets under management
- 527 institutional, accredited, and retail investors
- Over \$218M of capital mobilized for affordable housing
- Over \$500M in total capital mobilized across the Americas

2

Investment Fund and Product Design and Development

We have experience structuring, launching, and managing over a dozen funds including:

- Affordable housing funds
- Venture capital funds
- Place-based community loan funds
- Outcomes bonds
- Municipal climate infrastructure fund
- Private loans and co-op shares

3

Affordable Housing Development and Acquisitions

We have experience with development, due diligence and financial analysis:

- Land and building acquisition
- Municipal zoning and planning
- Environmental Assessments and permitting
- Construction estimates and pro-formas
- Legal and financial
- Tenant and property management

Capital Raise

Target Audience

The first LP offering will target accredited and institutional investors who are aligned with the Fund's affordable housing and Shariah-compliant mandate. This initial investor base is expected to include:

- foundations and family offices;
- faith-based institutions;
- families and HNWI's;
- institutions seeking tangible and impact-oriented real asset exposure;
- catalytic capital providers prepared to take a lower-return or zero-return position.
- philanthropic funders from the above audiences that would provide a charitable contribution to IslamicFamily in support of the fund / initial project.

Value Proposition

The Fund's capital raising strategy will emphasize the distinctive combination of:

- a real and visible housing need;
- a first-of-its-kind halal private market opportunity;
- a credible pilot project;
- institutional-quality fund management and reporting;
- a moderate, balanced return profile.

Phased Fundraising Strategy

A phased fundraising strategy is likely to be the most practical path to a successful launch.

- **Phase 1: Lead Investors and Seed Commitments:** The Fund will begin by securing lead investors / funders and early commitments that validate the market and provide momentum for the broader raise.
- **Phase 2: Broader Accredited Investor Outreach:** Following early validation, the Fund can widen its outreach to a broader set of accredited investors, foundations, and aligned institutions.
- **Phase 3: Continued Capital Calls and Closing Process:** Depending on the project structure and transaction timing, the Fund may complete its raise through multiple closes or staged capital calls aligned with project milestones.

Target Investor (and Funder) Profile

Type	Description	Examples
Foundations	Private and community foundations with an existing commitment to impact investing and an aligned commitment to housing or place-based investing.	Trottier Foundation, McConnell Foundation, Catherine Donnelly Foundation, Inspirit Foundation, Makeway, Laidlaw Foundation, Hamilton Community Foundation (HCF), The Co-operators, Oakville Community Foundation, Lawson Foundation, Toronto Foundation, Edmonton Community Foundation, Calgary Foundation
Faith-based organizations	Faith-based organizations or foundations with an existing commitment to impact investing and an aligned commitment to housing and/or poverty reduction.	Aga Khan Foundation, United Church of Canada, Muslim Association of Canada
Mainstream Financial Institutions	Financial institutions with a clear mandate to invest in housing and community real estate with a track record and practice in lending	VCIB, BDC, BMO, CIBC, and TD Bank
Portfolio Managers	PMs with an aligned interest in private impact investments with clients interested in affordable housing.	Rally Assets, Genus Capital Management, TwinRiver, AGF, Highstreet Asset Management
HNWIs and others	Other impact investors (asset owners and managers) including Social Finance Fund wholesalers, impact investing funds, and families and HNWIs. There may also be opportunities for non-Canadian investors.	BCH, Fondation, Boann Social Impact, Realize Capital Partners

Fund Value Proposition for IslamicFamily

Alignment with Mission

- Mission: IslamicFamily's mission is to uplift our community through culturally sensitive and compassionate care, ensuring every individual has access to safe spaces, support, and opportunities for holistic growth.

Stakeholder impact

- Donor Base: Great potential for further connectivity with donors who could place both investment capital and philanthropic capital into projects.
- Communities Served: Potential to provide more safe, comfortable, and affordable homes for the neighbours served by IslamicFamily.
- Staff: Supports staff retention through greater impact, innovation and leadership.

Long-term positioning

- Innovation Leader: Positions IslamicFamily as a leader in housing by creating a catalytic capital tool to acquire and develop more affordable housing.
- Fiscal: This could strengthen the balance sheet of IslamicFamily
- Policy: Greater scale and leadership could provide further opportunities/windows for political engagement and influence in advancing Canada's affordable housing agenda.

Fund Overview
